April 3, 2020

Dear Valued Customers:

In light of the increased outbreak of COVID-19 in our surrounding counties, Griffin Lumber & Hardware has decided to temporarily close all of our store front and only allow the entrance of GLH employees. At this time, we are most concerned of the health and well-being of all our customers, the GLH family, and adhering and following any guidelines produced by the World Health Organization.

However, out of respect for the community and the construction segment, GLH will continue to operate by offering contactless, curb-side pickup for in-store sales, as well as continued contractor pickups/deliveries in order to service all essential job sites. GLH is confident in our team and have taken the respected, precautionary measures to service our customer base, while maintaining a sanitary environment.

As this is an evolving pandemic, we have decided to increase our communication through social media on store hours and operation. Our hearts go out to everyone that has been impacted and wish you great health in such an unprecedented crisis.

Sincerely,

CJ Griffin
President
